

Our contribution to LPG Adoption

for Household Cooking in Nigeria

Community Impact/Advocacy

TechnoOil cooksafe initiative

Community Impact/Advocacy
Technooil cooksafe initiative

Through our Technooil Cooksafe Initiative, we have distributed over 50,000 units of gas stoves to market women and indigent household across Nigeria in the last 4 years

We have launched an awareness campaign to

- Educate Nigerians on the benefits of cooking with LPG
- Address the environmental and health hazards associated with cooking with biomass fuels
- Stop the decimation of our women and young ones, who are the primary victim of these hazardous cooking methods

Our Investment **in the LPG Value Chain**

Our Investment in the LPG Value Chain

- Construction of 20 units of 10MT LPG skid plants in our retail outlets across Nigeria
- Multi-billion Naira investment in the construction of a LPG Cylinder Manufacturing Plant with the capacity to manufacture 2 Million cylinders every year
- Construction of a 15,000MT LPG Terminal/Storage Facility
- Construction of an ultra-modern LPG Bottling Plant

Government Relations

c Government Relations

- Ensure that Nigeria achieves the Global LPG Partnership Goal
- Ensure zero duty on imported LPG manufacturing machines and components
- Implement ban on importation of gas cylinders
- Systematically reduce the cost of acquiring LPG Cylinder and make it affordable

Thank you
